Doing more to reduce food waste -

The airline industry throws away huge amounts of fresh food every day due to health & hygiene regulations and over stocking. BRITISHJET has now made all of its fresh sandwich selection **pre-order only**.

This prevents unsold stock going to waste on a daily basis, ensuring we only order and load fresh sandwich products that pre paid for by customers who wish to consume them.

Please make sure you pre-order your choice to enjoy a delicious fresh sandwich on the journey and help us reduce food waste.

Freshly produced & supplied to us everyday.

Our Fresh Food options are available to pre order only and are subject to availability. Fresh food options are not available on flights under 2 hours, due to space & time limitations. Stock may be limited on UK bound services.

If you are flying on a LINKS operated ATR flight, you can pre order a sandwich to enjoy on any flight over 1 hour in duration.

* Fresh sandwiches, wraps and hot delights are not available to pre order on our long haul services (7+hours) as a full catering service is provided.

Proudly supporting British Suppliers.
